## Career Summary

React Native developer with 2 years of experience. I build mobile apps for iOS and Android and have published 6 apps on the App Store and Google Play. I mainly work with React Native, TypeScript/JavaScript, Laravel and Firebase. In most projects I handle the frontend as part of a team of 3 to 5 people.

## Professional Experience

**React Native Developer** Dec 2025 - Present
**Technology Architects** **Pakistan**

- Lead frontend developer for 2 apps, Shagf App and Shagf Trainer, built with React Native and Expo. Both are live on 2 stores, the App Store and Google Play.
- Built SportsNova, a court booking app in React Native with a Laravel backend, with a 3-step flow to book a court: complex, court and time slot.
- Built a theme system with 2 modes, Fitness and Education, that changes colors and layout, so 1 codebase works for both user groups.
- Added live tracking across 2 apps with Pusher and expo-location. Customers can see their trainer or teacher moving on a map in real time.
- Set up Maps API, push notifications (FCM) and role-based API routing for 2 user types, Fitness and Teacher, each with its own endpoints.
- Handle releases for 2 apps on App Store Connect and Google Play Console with Expo EAS, plus bug fixes and OS updates.

**React / React Native Developer** Sep 2024 - Present
**Devxcel** **Islamabad, Pakistan (Remote)**

- Lead frontend developer in a team of 3 to 5 people on 5 live apps (web and mobile).
- Added RevenueCat subscriptions ($10 per month) and three OpenAI-based coaches in KorpoAI for iOS and Android.
- Added Thawani payments, push notifications, and gift vouchers and discounts across the 3 Tallah apps.
- Built Tallah Web, a React dashboard for shop owners and admins, sharing 1 Firebase backend with the 2 Tallah mobile apps.
- Used Firebase Cloud Functions for the 3 Tallah apps and Supabase for Yummy.
- Built the feed for Yummy, 1 of the 5 apps, and tuned it to run smoothly on low-end Android phones.
- Fixed lag and slow scrolling in 3 apps using memoization, lazy loading and FlatList tuning.
- Maintain the 5 live apps with bug fixes, OS updates and new features.

## Projects

**SportsNova - Court Booking App** 2026
React Native • Laravel • REST API

- Court booking app. Users pick a sports complex, a court and a time slot, then book it. Built like Tallah, but with a Laravel backend.

**Shagf App - Fitness and Education Booking** Dec 2025 - Present
React Native • Expo • Pusher • Maps API • FCM App Store | Google Play

- Booking app for fitness and education sessions. Has two themes, live trainer tracking and separate API routes for each user type. 1K+ downloads on Google Play.

**Shagf Trainer - Trainer and Teacher App** Dec 2025 - Present
React Native • Expo • expo-location • Pusher App Store | Google Play

- Trainer and teacher app. Login is based on role, and it sends live GPS location to the customer app.

**Tallah Client - Beauty and Wellness Booking** Jul 2025 - Present
React Native • Firebase Cloud Functions • Thawani • FCM App Store | Google Play

- Booking app for salons, barbers and spas. Users choose a service and a time slot, pay online and get notifications. Has gift vouchers and discounts. 1K+ downloads on Google Play.

**Tallah Admin and Tallah Web - Shop Management** 2024 - Present
React Native • React • Firebase Cloud Functions App Store | Google Play

- Admin app and web dashboard for shop owners and super admins to manage shops, services and appointments. Uses the same backend as Tallah Client.

**KorpoAI - AI Health and Wellness App** Apr 2025 - Jul 2025
React Native • OpenAI API • RevenueCat App Store

- Health app with Emotional, Physical and Work tabs, each with its own AI coach. Has RevenueCat subscriptions and diet plans that sync to the phone calendar.

**Yummy - Food and Lifestyle Social App** 2025
React Native • Supabase

- Social app where users post about their daily food and lifestyle. Image-heavy feed tuned for low-end Android phones.

**SkillBot - AI Interview Evaluator** May 2025
React Native • OpenAI API • Firebase GitHub

- Quiz app where you pick a framework and get questions made by OpenAI, then a score with suggestions.

**HITEC Universe - University Management App** Jan 2023 - Dec 2024
React Native • Firebase • Final Year Project

- University app with student, staff and admin roles. Has event booking, complaint tracking and an admin panel. Praised by the faculty panel.

## Internship

**Front-End Developer Intern** Jun 2023 - Aug 2023
**Adan Institution of Technology** **Gujrat, Pakistan**

- Built 5+ responsive web pages and a portfolio site with HTML, CSS, JavaScript and PHP, working under a senior developer.

## Educational Background

**Bachelor of Science (B.S.) in Software Engineering** Sep 2021 - Jun 2025
HITEC University, Taxila • GPA 3.45 / 4.00

## Skills and Expertise

**Core Skills:** React Native • Expo (EAS) • React • TypeScript/JavaScript (ES6+) • React Navigation • React Query • REST APIs • WebSockets • Push Notifications (FCM) • Agile/Scrum

**Backend and Integrations:** Laravel • Node.js • Firebase • Supabase • MongoDB • Pusher • RevenueCat • OpenAI API • Maps API • Thawani

**Tools:** Git/GitHub • Postman • Figma • cPanel • App Store Connect • Google Play Console • CI/CD
